Jesus Christ made it clear that He values and cares deeply for young people. Harderwyk Ministries continues to follow His lead by passionately investing in the lives of area youth to help them get to know the love of Jesus and walk a path that models His love for others. We are honored to have the chance to meet and build relationships with every student that walks through our doors. Through a variety of games, activities, trips, retreats, service, and conversations, we try to build relationships with students to lead them to their very own relationship with Jesus Christ.
